

## Arm TechCon 2019 Call for Papers Reference Form

Thank you for your interest in submitting a proposal to Arm TechCon 2019. This document will help you to prepare the information needed for your online submission. All submissions must be submitted through the [online portal](#) for consideration.

Arm TechCon receives hundreds of proposals for the 70 speaking slots that are available. To improve the likelihood that your proposal is selected, submissions will be evaluated based on quality, relevance, impact, and originality.

This year's event includes eight technical tracks that reflect the areas for Arm-based solutions (*get full track descriptions [here](#)*). All relevant proposals will be considered. For guidance on the information required to submit a session or to understand the review criteria, please review our [submission guidelines](#).

If you have questions on submitting a proposal, please contact [ArmTechConSpeakers@nthdegree.com](mailto:ArmTechConSpeakers@nthdegree.com).

### SUBMITTER INFORMATION

The information you provide in this section pertains to you as the Submitter. If you're also the Speaker, your account information can be carried forward in the Participant section.

The following information will be required to create an account and submit a proposal.

#### \*= required input

- Title \* Dr./Mr./Mrs./Ms./Mx./Other
- First Name \*
- Middle Initial
- Last Name \*
- Suffix Jr./Sr./Other
- Company \*
- Job Title \*
- Address 1\*
- Address 2
- City \*
- Country \*
- State/Province \*
- Zip/Postal Code \*
- Primary Email Address \*
- Primary Telephone \*
- Mobile Telephone

### PROPOSED SESSION INFORMATION

\* = required input

- **Do you agree to our [Terms & Conditions](#)?** \*

You must agree to the terms and conditions to submit a proposal.

- **Are you the proposed speaker or panel moderator?** \*

Each proposed participant must approve their participation. If your submission is accepted, the speaker notifications will be sent to the email addresses you list in the participant section of this submission. Please be sure to enter the correct email address of your speaker.

- **Session Format \*** (select one)

- Individual Speaker – One speaker only in a technically driven 50 minute session.
- Co-Speakers – This format has two-three speakers in a technically driven 50 minute session.
- Panel Discussion – This is a session with a moderator and up to four panelists. The moderator is responsible for facilitating the panel discussion and is the main contact for the Arm TechCon speaker manager. Panel discussions are not presentations and participants should represent diverse points of view and background within a 50 minute session.
- Workshops – Provides attendees with hands-on experience in areas such as developing new features, implementing security features, or learning new debug practices on Arm-based devices in a 2-3 hour session.

- **Session Title \*** (Limit 75 characters *including spaces*)

Your session title should clearly indicate the topic of your presentation and do so in a way that attracts potential attendees to your presentation. The title entered here will be used in marketing materials if selected.

- **Conference Track \***

Please select your [conference track](#) preference. (*Note: Reviewers may move your submission to a more appropriate track based on the content provided in the submission.*)

- AI & Machine Learning
- Automotive, Industrial & Functional Safety
- Cloud to Edge Infrastructure
- Connected Devices & Cloud Services
- Embedded Software Development
- Interactive Compute
- System Design Methodology
- Trust & Security

- **Abstract \*** (Limit 1000 characters *including spaces*)

This abstract will be included in our marketing materials and website if selected as well as any program guides, mobile apps, or onsite materials, etc.

- **Session Detail \*** (Limit 2,500 characters *including spaces*.)

Describe your session here. What are the main points you plan to cover? Describe the presentation flow. If a panel, what are the specific issues will you have the panelists address? Where will the difference of opinions come from? Are your panelists diverse? This is the most important part of your submission for the Technical Program Committee review—please be thorough and specific to increase your chance of acceptance by differentiating your submission from others. This information will not be public.

- **Will this presentation be seen elsewhere within 45 days before or after the conference?**

\* Yes /No

If Yes, please provide details:

- **Learning Objectives \*** (Limit 200 characters *including spaces* each.)

These objectives should give the attendee of your session an important overarching view of what they can expect to learn by attending your session.

- **Submitter's Comments** (Limit 400 characters *including spaces.*)  
Is there anything else you want to tell the Technical Program Committee?
- **Supplemental Documents \***  
Submitters are invited to upload supplemental documents to support their proposal. (*Note: PowerPoint, PDF and Word documents are supported. Files must be under 50 MB and only two supporting documents can be added to your submission.*)

## SESSION PROFILING INFORMATION

The information provided in this section will help ensure that the attendees clearly understand if they have the appropriate technical level to get the most benefit from your session.

- **Audience Technical Level \***
  - Beginner** - Focused on introductions to technology and is applicable to professionals with up to 5 years of experience.
  - Intermediate** - Focused on principles and concepts that would appeal to attendees with more than 6 years of experience.
  - Advanced** - Focused on advanced principles and concepts, geared toward attendees with deep subject knowledge and 11 or more years of experience.

- **Who is the target audience for this session?**

We are asking for specific target audience information so that we can provide recommendations to attendees based on their functional roles. TIP: The target audience for your talk should be specific – if you select all audience types below, the Technical Program Committee may find your proposal not specific enough. (*Select all that apply*)

- C-Level/Executive
- Architect
- Hardware Engineer
- Software Developer
- Other, please specify: \_\_\_\_\_

- **Select the industries that would be the most appropriate for your topic. \***

- Automotive
- Consumer Electronics
- Embedded Devices
- Infrastructure
- IoT
- Mobile
- Networking
- OEM
- Platform Design
- Security
- Servers
- Silicon Design

- Software Development
- Other, please specify: \_\_\_\_\_

• **Topic Tags: Please provide up to 3 keywords to describe your session. \***
